

HM1307C

30mm Hex Shank Electric Breaker

1,510W

Strengthened aluminium barrel

Tool holder
made from sturdy steel
accepts 30mm hex hammer bits

Long size carbon brush
for extended service life

Flat external design
for breaking close to wall and
floor surfaces

Easy-to-operate slide switch
reduces operator fatigue even
with long continuous operation

Ergonomically designed handle
with rubberized soft grip provides
more comfort and control, while
minimizing operator fatigue.

Electronic with:

Variable speed control by dial.
LED Service light indicates when carbon brush
requires replacement
LED Power light indicates electrical circuit
problems.
Soft start for suppressing start-up reaction.
Constant speed control

**High durability and
excellent demolition performance**

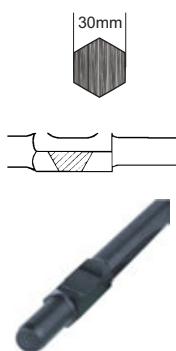

MAKITA ADVANTAGE

High durability achieved by strengthening of key parts such as barrel and gears based on feedback and test data.

Increased repairability obtained by using ingenious brush holder unit for simplified wiring.

Electrical speed control for maximum performance.

LED lamp in is provided as pilot lamp

SPECIFICATIONS:

Blows per minute	730 - 1,450
Continuous rating input	1,510W
Overall dimensions	
L x W x H	715 x 129 x 266mm
Net weight	15.3kg
Power supply cord	5m
Carbon brush	CB175
Joule rating	33.8 Joules

FEATURES:

Double insulation, Variable speed, Hex shank drive, Constant speed, Soft start & Carry case

STANDARD EQUIPMENT:

Bull point, grip

OPTIONAL ACCESSORIES:

Description	Part No.
410mm bull point chisel	A-80466
400mm bull point chisel	D-15285
30 x 410mm cold chisel	D-15300
120 x 500mm clay spade	B-10300
